

QUALITY OVERVIEW

Select Health

Purpose of This Document

We post a Quality Overview for each Colorado Qualified Health Plan (QHP) on Connect for Health Colorado. It will give you information about company statistics, health plan accreditation, clinical quality measurement (medical care), enrollee experience (member satisfaction) and plan administration (efficiency, affordability and management) so you can compare health plans while you shop for insurance coverage.

Company Statistics

Founded In: 1983

Website: www.SelectHealth.org

Coverage Area: Adams, Arapahoe, Boulder, Broomfield, Clear Creek, Delta, Denver, Douglas, El Paso, Elbert, Gilpin, Jefferson, Larimer, Mesa, Park, Pueblo, Routt

Coverage area shows the area where a health insurance plan accepts members.

Colorado Membership (2023 Membership):
Individual Members: New Plan in 2024

Colorado Market Share

Colorado Market Share for 2021

Percentage of total market share is based on all medical and dental carriers.

Confirmed Complaints

Confirmed Complaints: N/A

People complain to the Colorado Division of Insurance (DOI) about things like claims handling, cancellation of a policy or a premium refund. In a "confirmed complaint," the DOI decided the insurance company did not follow the state insurance law or regulation, a federal requirement, or the terms and conditions of an insurance policy or certificate they sold. Confirmed complaints come from people in all group sizes, not just individual plans like those available at Connect for Health Colorado.

Consumer Complaint Index

The complaint index shows how often people complain about their health insurance company compared to other companies. These numbers are adjusted for the size of the company and how many policy holders it has in Colorado. A company's total number of complaints divided by its total premium income for a specific insurance product is the complaint index. The average is 1.0. An index greater than 1.0 means more people complained about **Select Health** than other companies.

Medical Loss Ratio (MLR)

Medical Loss Ratio (MLR) Explained

The Affordable Care Act requires insurers to explain how much of your premium dollars are spent on medical services and quality improvement. This is called the Medical Loss Ratio (MLR). It also requires them to give you a rebate if they don't meet the minimum of 80% MLR for individual and small group plans. This limits the amount insurers spend on things like profits, executive salaries and other overhead.

Medical Loss Ratio for 2021*

Individual

Individual Patient Care Costs:

New Plan
Medical Loss Ratio Unavailable

If a MLR is more than 100%, that company spent more money on medical care than it received in premium dollars.

**2022 MLR data not yet available.*

Accreditation

Accreditation for the Exchange Product

Accreditation is when an impartial organization reviews a company's operations to make sure the company is following national standards.

Accreditation:

Pursuing NCQA Health Plan Accreditation (Marketplace HMO)

The National Committee for Quality Assurance (NCQA) is an independent not-for-profit organization that looks at and reports on the quality of health-related programs.

Accreditation Status:

Expect to Receive NCQA Accreditation Status by December 2023

Accredited means the organization's programs for service and clinical quality meet basic requirements for consumer protection and quality improvement. "Accredited" is the best possible status for Marketplace plans.

Quality Ratings

Understanding the Differences

Health Insurance Marketplace plans have different premiums and out-of-pocket costs, and the quality of service and benefits they provide may differ too. When choosing a health plan, it is important to understand and consider these differences. To help you decide what plan is right for you, we display “quality ratings” calculated using information provided by health plans each year. These quality ratings are based on enrollee experience and the quality of health care services. All health plan ratings are calculated the same way, using the same information source. This information comes from the federal Centers for Medicare & Medicaid Services (part of the U.S. Department of Health and Human Services) using data provided by health plans in 2022. You can learn more about these ratings on the federal web site. www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/QualityInitiativesGenInfo/ACA-MQI/Quality-Rating-System/About-the-QRS.html

Star ratings give you a snapshot of how each health plan’s quality compares to that of other plans in Colorado and across the country. Star ratings give objective information on how health plans perform in the Marketplace. Since every plan offered is rated the same way, it is easy to compare their quality.

Quality Ratings System : Global Rating

Each rated health plan has an “overall” quality rating of 1 to 5 stars (5 is the highest rating). This rating is based on three categories: medical care, member experience, and plan administration. Each of these categories also has its own star rating between 1 to 5 stars. A star rating of 3 means that a health plan is considered on average with other Marketplace plans across the country. A star rating higher than 3 means the plan performed better than average compared to other Marketplace plans in a given year. A star rating lower than 3 means that a plan’s performance was below average compared to other Marketplace plans in a given year. A star rating isn’t a complete picture of the types of services and care a health plan provides. Each year, ratings may change because of information that health plans provide or changes to how the ratings are calculated.

Note: Ratings are calculated on a 5-year scale and may change from year-to-year. In some cases – like when plans are new or have low enrollment – ratings aren’t available. This doesn’t mean the plans are low quality.

Quality Ratings Unavailable

Quality Ratings System : Summary Indicators

 **New Plan**
Quality Ratings Unavailable

Medical Care

How well the plans’ doctors, hospitals, and others in the plan’s network improve or maintain member health through appropriate screenings, vaccines, and other basic services, and how informed and up-to-date your doctors are about your health care status, blood tests and x-ray results (details on page 4).

 **New Plan**
Quality Ratings Unavailable

Member Experience

How easy it is to get the care you need, when you need it and how other plan members rate their doctors and the care they get (details on page 5).

 **New Plan**
Quality Ratings Unavailable

Plan Administration

If the plan coordinates the care members get from different providers and how well the plan provides access to needed information (details on page 6).

Additional Detail: More detailed measures are used to rate each Qualified Health Plan (QHP). You can find these additional measures in the Appendices. You can also search, compare and choose providers, hospitals and other health care facilities using tools on the federal website: www.healthcare.gov/find-provider-information

Appendix 1 : Clinical Quality Management

Below you will find the detailed measures used to assign the star rating for Medical Care.

The ratings are being displayed for health plans for the 2024 plan year. Learn more about these ratings at: www.healthcare.gov/quality-ratings

How This Health Plan is Different

This page allows the new plan Insurance Provider to explain how this health plan is different or unique, and how they work to make their members healthier.

How is This Plan Different or Unique?

Simple Is Our Goal — For more than 40 years, Select Health® has worked to simplify healthcare for our members. We are committed to creating sincere and seamless experiences and products that are rooted in value-based care. More specifically, Select Health offers commercial and government medical plans, as well as dental, vision, and pharmacy benefit management in Utah, Idaho, Nevada, and now, Colorado. We share our mission with Intermountain Health of Helping People Live the Healthiest Lives Possible®

What Makes Us Different — We get it, life is unpredictable. That's why our goal has always been to provide the best possible coverage at the lowest possible price.

Accessibility

- Access to Intermountain Health, UCHHealth, and Monument Health
- Best-in-class providers that offer quality treatment when and where you need it
- A highly trained Member Advocates team that can help coordinate your care

Affordability

- \$0 virtual office visits for primary care and mental health
- Virtual urgent care visits are available 24/7
- Wellness rewards programs and HSA-qualified health plans

How the Health Plan Works to Make Its Members Healthier

With access to ~23,000 providers and ~2,000 unique facilities, our network reach allows our over one million members access to best-in-class health care within their community.
