

Returning Assister Certification Training

Assisters, including both Health Coverage Guides (HCGs) and Certified Application Counselors (CACs), are individuals who work for a government or community-based organization who can offer health coverage education and enrollment support to those in their communities. By improving health outcomes locally, our Assisters are able to reach and educate systemically marginalized communities that may be underinsured or experiencing a lack of coverage. The Assister Certification Program provides the minimum body of knowledge required for Assisters to operate on the Connect for Health Colorado Marketplace and Colorado Connect, our subsidiary organization. You will be able to print the required documents, but they must be signed electronically for certification.

Returning Assisters are defined as Assisters who completed the previous two (2) year's certification training.

Training Hours: 8 hours

The Role of Assisters

This online course will: Define the role of an Assister; Identify the responsibilities of an Assister; and comprehend the certification requirements for Assisters. **Estimated time: 10 min**
