Purpose of this Document

We post a Quality Overview for each Colorado Qualified Health Plan (QHP) on Connect for Health Colorado. It will give you information about company statistics, health plan accreditation, clinical quality measurement (medical care), enrollee experience (member satisfaction) and plan administration (efficiency, affordability and management) so you can compare health plans while you shop for insurance coverage.

Company Summary

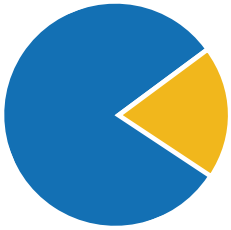
Helping people is at the heart of all we do. At Rocky Mountain Health Plans (A UnitedHealthcare Company), we're committed to making a difference in each member's life. We are a Colorado based health care company where we trace our roots back more than 50 years. As your partner in total health and wellness, we're available for our members 24/7 with a network built to help you meet your individual health goals.

Rocky Mountain Health Plans is a top-rated Health Plan and holds NCQA Accreditation. The National Committee for Quality Assurance (NCQA) is a private, nonprofit organization dedicated to improving health care quality. Rocky Mountain Health Plans has long held NCQA Health Plan Accreditation and has recently achieved NCQA Health Equity Accreditation to demonstrate our dedication to advancing health equity and addressing disparities in healthcare. Maintaining NCQA Accreditation means that we have demonstrated an ongoing commitment to prioritize quality and have made a promise to maintain high quality standards of care.

Colorado Market Share

2024 CONNECT FOR HEALTH COLORADO MARKET SHARE:

Percentage of total market share is based on qualified health plans on Connect for Health Colorado.



19.63%

Rocky Mountain Health Plans offers Individual & Family ACA plans in Colorado designed to give you the coverage you need without breaking the bank. Choose from plans in the Bronze, Silver and Gold metal levels. Each come with a variety of benefits, including reliable support from our customer service experts. We take great pride in the quality of service we provide to our members. We look forward to serving you.

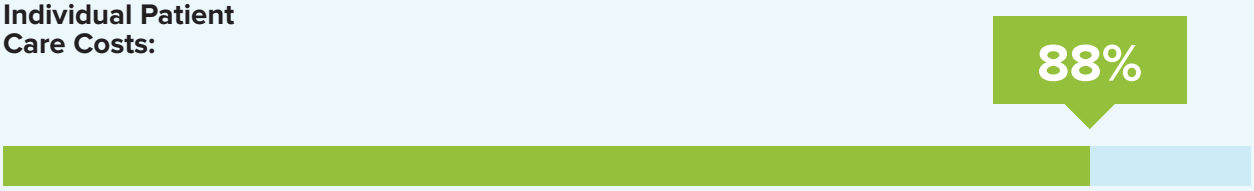
A UnitedHealthcare Company

Medical Loss Ratio (MLR)

The Affordable Care Act requires insurers to explain how much of your premium dollars are spent on medical services and quality improvement. This is called the Medical Loss Ratio (MLR). It also requires them to give you a rebate if they don't meet the minimum of 80% MLR for individual and small group plans. This limits the amount insurers spend on things like profits, executive salaries and other overhead.

Medical Loss Ratio for 2023*

Individual Patient Care Costs:



If a MLR is more than 100%, that company spent more money on medical care than it received in premium dollars.
**2025 MLR data not yet available.*

Accreditation

Accreditation is when an impartial organization reviews a company's operations to make sure the company is following national standards.

Accreditation for the Exchange Product

Accreditation: **NCQA Health Plan Accreditation (Marketplace HMO)**

The National Committee for Quality Assurance (NCQA) is an independent not-for-profit organization that looks at and reports on the quality of health-related programs.

Accreditation Status: **Accredited**

Accredited means the organization's programs for service and clinical quality meet basic requirements for consumer protection and quality improvement. "Accredited" is the best possible status for Marketplace plans.

Understanding the Differences

Health Insurance Marketplace plans have different premiums and out-of-pocket costs, and the quality of service and benefits they provide may differ too. When choosing a health plan, it is important to understand and consider these differences. To help you decide what plan is right for you, we display "quality ratings" calculated using information provided by health plans each year. These quality ratings are based on enrollee experience and the quality of health care services. All health plan ratings are calculated the same way, using the same information source. This information comes from the federal Centers for Medicare & Medicaid Services (part of the U.S. Department of Health and Human Services) using data provided by health plans in 2025. You can learn more about these ratings on the federal web site. www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/QualityInitiativesGenInfo/ACA-MQI/Quality-Rating-System/About-the-QRS.html

Star ratings give you a snapshot of how each health plan's quality compares to that of other plans in Colorado and across the country. Star ratings give objective information on how health plans perform in the Marketplace. Since every plan offered is rated the same way, it is easy to compare their quality.

Quality Ratings System: **Global Rating**

★★★☆☆

Each rated health plan has an "overall" quality rating of 1 to 5 stars (5 is the highest rating). This rating is based on three categories: medical care, member experience, and plan administration. Each of these categories also has its own star rating between 1 to 5 stars. A star rating of 3 means that a health plan is considered on average with other Marketplace plans across the country. A star rating higher than 3 means the plan performed better than average compared to other Marketplace plans in a given year. A star rating lower than 3 means that a plan's performance was below average compared to other Marketplace plans in a given year. A star rating isn't a complete picture of the types of services and care a health plan provides. Each year, ratings may change because of information that health plans provide or changes to how the ratings are calculated.

Note: Ratings are calculated on a 5-year scale and may change from year-to-year. In some cases – like when plans are new or have low enrollment – ratings aren't available. This doesn't mean the plans are low quality.

Quality Ratings System: **Summary Indicators**

★★★☆☆

Medical Care

How well the plans' doctors, hospitals, and others in the plan's network improve or maintain member health through appropriate screenings, vaccines, and other basic services, and how informed and up-to-date your doctors are about your health care status, blood tests and x-ray results (details on page 4).

★★★★★

Member Experience

How easy it is to get the care you need, when you need it and how other plan members rate their doctors and the care they get (details on page 5).

★★★★☆

Plan Administration

If the plan coordinates the care members get from different providers and how well the plan provides access to needed information (details on page 6).

Appendix 3: Plan Efficiency, Affordability & Management

Below you will find the detailed measures used to assign the star rating for Plan Efficiency, Affordability & Management or Plan Administration.

Plan Administration

★★★★☆

If the plan coordinates the care members get from different providers and how well the plan provides access to needed information.

Plan Administration includes:

- Appropriate Treatment for Upper Respiratory Infection
- Avoidance of Antibiotic Treatment for Acute Bronchitis/Bronchiolitis
- Use of Imaging Studies for Low Back Pain
- Access to Information
- Plan Administration
- Rating of Health Plan

Note: Plan quality ratings and enrollee survey results are calculated by the Centers for Medicare & Medicaid Services (CMS) using data provided by health plans in 2025. The ratings are being displayed for health plans for the 2026 plan year. Learn more about these ratings at: www.healthcare.gov/quality-ratings

Confirmed Complaints

35

People complain to the Colorado Division of Insurance (DOI) about things like claims handling, cancellation of a policy or a premium refund. In a "confirmed complaint," the DOI decided the insurance company did not follow the state insurance law or regulation, a federal requirement, or the terms and conditions of an insurance policy or certificate they sold. Confirmed complaints come from people in all group sizes, not just individual plans like those available at Connect for Health Colorado.

Consumer Complaint Index

The complaint index shows how often people complain about their health insurance company compared to other companies. These numbers are adjusted for the size of the company and how many policy holders it has in Colorado. A company's total number of complaints divided by its total premium income for a specific insurance product is the complaint index. The average is 1.0. An index less than 1.0 means fewer people complained about **Rocky Mountain Health Plans** than other companies.
