Confirmed Complaints

***New Plan**

People complain to the Colorado Division of Insurance (DOI) about things like claims handling, cancellation of a policy or a premium refund. In a "confirmed complaint," the DOI decided the insurance company did not follow the state insurance law or regulation, a federal requirement, or the terms and conditions of an insurance policy or certificate they sold. Confirmed complaints come from people in all group sizes, not just individual plans like those available at Connect for Health Colorado.

Consumer Complaint Index

The complaint index shows how often people complain about their health insurance company compared to other companies. These numbers are adjusted for the size of the company and how many policy holders it has in Colorado. A company's total number of complaints divided by its total premium income for a specific insurance product is the complaint index. The average is 1.0.
